WEIGHT MEASURER

Level 1

Reports to (Hierarchical)

Activity Supervisor

Reports to (Functional)

Activity Manager

Job Family

Medical

Main Purpose

Perform and keep record of anthropometrical measurements (height, weight, etc.) of patients according to **MSF** protocols, in order to complete and supervise their files and to preserve data traceability.

Accountabilities

- Measure weight, height and Middle Upper Arm Circumference (MUAC) of children and patients.
 - Detect sign of oedemas.
 - Participate in nutritional surveys and assessments outside health facility.
 - Record in individual patient's card and registration books all information measured, i.e. MUAC, weight and height.
 - Inform patients and carers about results of measuring, i.e. weight, height, difference from previous measurement, if any.
 - Look after all equipment provided.
 - Ensure that no material is taken out of weight and height measure area without prior authorisation.
 - Report medical staff on any possible health problem or issue (big loss of weight, missing file).
 - Report daily measurements, i.e. number and results, at the end of each day.
 - Report line manager on any incidence regarding weight, height and measurers or on equipment or material (broken, missing).
-

Education

Essential literacy.

Experience

Not required, desirable experience with other NGOs.

Language Level Description

A2 Basic User

Waystage or elementary

- Can understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment).
 - Can communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters.
 - Can describe in simple terms aspects of his/her background, immediate environment and matters in areas of immediate need.
